The Company's Board of Directors has no special powers.

i) Information Concerning Significant Contracts Relating to Change in Control Over the Company as a Result of a Takeover Bid

ČEZ, a. s. has entered into significant contracts that will become effective, change, or expire if control over ČEZ changes as a result of a takeover bid. These are the 7th, 12th, 13th, 14th, 19th, 20th, 21st, 24th, and 30th Eurobond issues; the 1st, 2nd and 4th Namensschuldverschreibung issues; the 1st and 2nd US bond issues; the ČEZ, a. s. Promissory Note Issue Program; loan agreements with the European Investment Bank for EUR 100 million made in 2010, for EUR 180 million made in 2011, for EUR 100 million made in 2012, for EUR 200 million made in 2014, and for EUR 200 million made in 2010 (originally between the European Investment Bank and a Romanian subsidiary) and assumed by ČEZ, a. s. in 2016. In these contracts, the counterparty would be entitled, but not required, to demand early repayment should there be a change in the controlling entity of ČEZ. However, the right to early repayment may be exercised only if Standard & Poor's or Moody's publicly declares or notifies ČEZ in writing that it has downgraded ČEZ's existing credit rating due to, in full or in part, the change in controlling entity. Downgrading an existing credit rating is defined as any change from investment grade to noninvestment grade, any downgrade of original noninvestment grade, or nondetermination of investment grade if no rating was given at all. The above reduction would have to take place in the period from the public disclosure of the step that could result in the change in controlling entity to 180 days after the announcement of the change in controlling entity. The counterparty would not be allowed to exercise its right to early repayment if, following the actual change in the controlling entity, the credit rating agency reevaluated its position and restored ČEZ's investment grade or original noninvestment grade rating within the period defined above. The contractual provisions concerning a change in control over ČEZ should be seen in the context of the credit ratings of ČEZ, a. s., which in 2017 were A- (with a stable outlook) by Standard & Poor's and Baa1 (with a stable outlook) by Moody's, that is, 4 and 3 grades, respectively, above the credit rating agencies' noninvestment-grade ratings. Said change-of-rating condition does not apply to the loan agreements with the European Investment Bank, worth EUR 780 million in total, under which the counterparty's right becomes effective as soon as control over ČEZ, a. s. changes.

j) Information Concerning Contracts Binding the Company in Relation to a Takeover Bid

ČEZ has not entered into any contracts with members of its Board of Directors or its employees in which the Company would undertake to provide performance in case their service or employment is terminated in relation to a takeover bid.

k) Information Concerning Programs That Allow Acquiring the Company's Corporate Securities

Remuneration of top managers at ČEZ includes an incentive program that allows them to acquire Company shares. Members of the Board of Directors and selected managers were/are entitled to options on the Company's common shares under terms and conditions set forth in a stock option agreement; for members of the Board of Directors, such stock option agreements form annexes to their service contracts. Under the stock options rules, approved by the shareholders' meeting in May 2008, members of the Board of Directors and selected managers receive options on a certain number of Company shares every year as long as they remain in office. The exercise price per share is determined as the weighted average of prices at which Company shares were traded on the regulated market in Czechia during one month before the annual grant date. Stock option beneficiaries may call on the Company to transfer shares up to the number corresponding to a given option grant, no earlier than two years and no later than by the middle of the fourth year after every option grant. The stock options are restricted in that the appreciation of the Company's shares may be no more than 100% over the exercise price and the option beneficiary must keep on their asset account as many shares of Company stock obtained under that call as corresponds to 20% of the profit realized on the call date until the termination of the stock options plan. In 2017, there were six individuals among employees and members of the Board of Directors who owned shares of stock obtained through the stock option plan. Only one individual exercised their right to attend the shareholders' meeting of ČEZ as a Company shareholder, but the individual did not exercise their right to vote at the shareholders' meeting. All but one of the individuals made use of their right to dividend. None of the individuals exercised their right to submit a request for explanation and receive a response. Neither did any of the above-mentioned individuals exercise any other rights associated with their ownership of Company shares. According to information submitted to the Company for the purposes of preparing this report, no beneficiary of the stock option plan transferred any separately transferable right attached to their shares to any third party.

Thank you for your attention.
